THE DRAKE, Exhibited by Mrs. JEAN STOKES

From "THE DAHLIA", National Dahlia Society of England.

We send New Year's Greetings to each of you. We hope the New Year will be a happy and busy one for all. Here on our air-conditioned coast we again experienced the coldest summer in many, many years, with never a single warm night. Again October was just about the warmest month and our dahlia garden was the loveliest then in spite of showers on many days.

We were able to attend our wonderful North West Dahlia Conference show at Portland; it was a miracle of beauty. The blooms were outstanding and faultless in their perfection. The seedling classes were good, with many, many lovely ones and a few made the top grade. There were wonderful dahlia shows held all over this great country of ours and I do hope that those of you who love the dahlia and grow it, go to these shows; there pick out the ones that you like best. It takes the worst kind of heart-breaking work by just a few to put on a successful show. It is sorrowful indeed when the public, especially those who like dahlias, do not go to these exhibits and show their appreciation. Make a New Year's vow now that you will go and support the flower shows in your community.

TERMS: As usual all orders will be filled strictly as they are sent to us. Our shipping starts early in April, all California orders going first or when they are requested. Any orders requested before March 20th will not be guaranteed to have a live eye, because mostly they are not visible. But on any orders so requested we will do our best. We will prepay orders of \$4.00 and over; any less please add 35¢ for postage and packing. All orders east of the Mississippi, please include 15% of your order for PP. For your kindness in helping with the PP we will send you extra tubers for the amount of the postage. You may state your preference of some colors or varieties.

Our same guarantee and promise, that every tuber will be healthy, with a live eye and will be true to name. Please return any tuber to us as soon as it is determined that it will not grow; it will be replaced immediately. We will be shipping plants of the newest and scarce varieties; they will be grown and shipped in the little Ferto pots. Please indicate which is the best time to put out plants in your vicinity.

In the past we have continued sending catalogs for three to four years after the initial request whether the requestee had ordered from us or not. Due to the expense and now the postage advance we can no longer do this. We will mail to all old customers and to all those who requested catalogs last year. All others must send in a new request.

Our thanks to each of you who have written us, sent your show reports and schedules. Many have written and told us of the blue ribbons and awards they have won. We love hearing from you, so keep on writing.

Yours for a great 1963

Emelene M Cole

If someone offered me a choice of two dahlia tubers, one 12" long and the other 2", I would take the 2" one. The 12" tuber has all the food stored which it can use, will make no tubers and only a fair plant. The 2" tuber must fight, makes long roots in order to get more food, and will make a big clump of roots.

NOH GATA A SC LAV	Very fine new Japanese of great size, a pure lavender self	E-M	1.50
NEW AMSTERDAM A ID RED	Mr. Ballego's huge new red. He says better than "UCHUU". Pl. only, 1.25

NUTLEY SUNRISE B IC OR	Striking color & construction, blend of orange shades purple	E-M	.75

Make a New Year's resolution now to grow your favorite kind and color of Dahlias, learn how to disbud them, pamper them to make show blooms, then enter them in your fall flower show. It is FUN.

ORANGE MAJESTY A ID OR	Massive deep bloom of sparkling orange, strictly BLUE	M	1.00
ORCHID LACE B SC LT BL	Nat Lungren's great beauty, favorite of everyone who sees it. Exquisite coloring of deep lavender shading to a white base	E-M	2.50
ORIENT EXPRESS B IC VAR	Bright and colorful yellow base streaked crimson	E	.75
OTTO'S THRILL A FD PK	Loveliest camellia rose, a great beauty	M	.90

My tiny Christmas puppy, "Zippy" has no respect for my precious dahlia tubers. I've been dividing and drying them on the floor in an unused bedroom. "Zippy" was in there, for all of one minute and she was very selective; she picked up an "Orchid Lace" played with it then carried it and laid it beside "Ted Lawtey". Hmm! Probably would be a good combination. "Zippy" is a tiny "POM" and weighs about 1-1/2 pounds. She flew from Denver, a gift from Wally, LaVelle, Diane and David.

PAM SILK B SC LT BL	You MUST grow this exquisite dahlia; the strong sturdy plant, rigid stems. The soft carmine rose shading to sulphur base has an amazing fresh look	E-M	.85

ROSEMARY OLIVER B FD LAV	Finest formation of bloom and coloring; lavender shaded rose	M	.90
ROTTERDAM B SC RED	Mr. Bruidegom's sensational red, has been a terrific winner Pl. 1.25		2.25

Some further notes from the 1940 A.D.S. bulletin. It really was a beauty 8x10 magazine with 64 pages. Also there were 40 big and little ads with which to pay for it. Countless dahlia growers all gone or out of business and none have taken their places. I wonder why?

SANSCULOTTE B SC AU	We are still partial to this bloom of deep salmon apricot	M	.85
SAPPERLOOT A IC OR	Brand new Dutch, very large slight incurve, deep orange shading to red with tiny yellow tips. Very distinctive bloom	Plants only, 1.25	M
SEARCHLIGHT A ST C YEL	Still consistently winning, beautiful soft pure yellow self	E-M	.85
SEI KI A SC RED	Wonderful new Japanese, terrific bloom and color of softest rose red with some salmon shading in the red. Really a beauty on good stems. Pl., .90	M	1.75
